

TODAY,

We help food service, retail and ecommerce clients expand their food product offerings with an extensive menu of gourmet meats, seafood, heat and serve items, desserts and gift packages through our national home delivery program.

THE RASTELLI STORY

Rastelli Foods Group has been at the center of the food industry since 1975. It was during this year that we opened our first butcher shop, called The Meat Stop, in southern New Jersey. Our business quickly grew to eight locations and today, we are a leader in fresh meats and seafood. We supply consumers, retail grocers and the finest restaurants in the USA and internationally.

As a world-class provider of food products, we set the standard in taste, quality, cleanliness, and safety from each of our food processing plants. We manage the food production process, hand trimming, processing and packing in our state-of-the-art facilities. Through direct ownership or proprietary partnership, we select the finest products for our customers and carefully monitor quality through the order fulfillment process.
