The background of the slide features a high-quality photograph of two thick, raw meat steaks resting on a rustic wooden cutting board. The steaks are garnished with fresh green herbs. In the upper right, a dark stone mortar and pestle contains a vibrant orange-red spice blend. A sharp knife with a wooden handle is partially visible in the lower left corner. The overall aesthetic is warm and emphasizes the freshness and quality of the ingredients.

Ribs. They're mouthwatering, but messy. Delicious, but time consuming to cook. Tasty, but hard to eat. Your favorite meal, but only on special occasions. These are just a few examples of the feedback that prompted Al "Bubba" Baker to put his own twist on traditional barbecue. Widely known for their appearance on ABC's Shark Tank, Bubba's Boneless Baby Back Ribs have become a nationwide phenomenon. They're ready to heat and eat, plus you can cut them with only a fork and knife! Easy to prepare and even easier to enjoy.
